

CHEEKS FAMILY SYSTEM (CFS) OBJECTIVES

Identification: *Who Are We?*

- Identify as many Cheeks family relatives as possible, beginning with Generation 3, the sons and daughters of Generation 2. That identification process will continue as additional Cheeks family relatives are identified/located.
- Securely maintain key information for each identified Cheeks family relatives.

Communication: *Keeping In Touch*

- Provide multiple, easy-to-use methods for identified Cheeks family relatives to communicate with each other, individually or in identified groups.
- Provide access to the maintained key information for each identified Cheeks family relative, as appropriate, to other identified Cheeks family relatives.

Sharing Family Information and Virtual Interaction:

What's Going On, Let's Get Together (virtually)

- Provide multiple means to easily share family-related information between all identified Cheeks family relatives. Examples of family-related information are documents, media (*photos, videos, etc.*), announcements (*individual, family and events*).
- Provide a “safe space” for identified Cheeks family relatives to interact with each other (*virtually*).
